Innovation in therapy and diagnosis - that is what we are committed to.

Leading medical technology companies worldwide rely on our 3D tracking technology – we have been the global market leader in this field for over 20 years. Our expertise as an innovative high-tech company for the realization of modern, digital solutions in medical application fields is a central component of our success.

INSIDE

People work for NDI at four locations worldwide. The cultural diversity in our globally active company and the demands of the high-tech medical industry make for a stimulating work environment. The knowledge, enthusiasm and experience of our employees are essential to our success. And everyone knows everyone by name – including our colleagues in Canada, the USA and Hong Kong. We trust each other, are honest with each other and can celebrate with each other. And we do it across hierarchies – that's what makes work fun!

Welcome to NDI, where you will have the exciting opportunity to drive development projects forward and directly apply your extensive project management skills.

TASKS

- The main task for you as a Project Manager is to take over the management of development projects in medical technology component development.
- You will be responsible for project planning, management and monitoring and will coordinate with other projects, program management and product management on an ongoing basis.
- You communicate and present the project status on an ongoing basis in order to maintain an overview and to be able to initiate possible countermeasures quickly.
- In close cooperation, you coordinate personnel capacities with the relevant line managers.

PROFILE

- You have in-depth knowledge from a university degree in engineering, natural sciences, or a similar technical field
- Further training in project management methodology (e.g. PMI) is an advantage
- Ideally you have experience in the management of mechatronic development projects. Knowledge of medical technology is nice to have
- You are a strong communicator and maintain an effective communication style at all levels
- Experience in leading international project teams is an advantage
- You are fluent German and English
- You enjoy business trips to our locations worldwide
