Hidden Champion in der Medizintechnik – darauf sind wir stolz

Leading medical technology companies worldwide rely on our 3D tracking technology – we have been the global market leader in this field for over 25 years. Our expertise as an innovative high-tech company for the realization of modern, digital solutions in medical application fields is a central component of our success.

INSIDE

People work for NDI at four locations worldwide. The cultural diversity in our globally active company and the demands of the high-tech medical industry make for a stimulating work environment. The knowledge, enthusiasm and experience of our employees are essential to our success. And everyone knows everyone by name – including our colleagues in Canada, the USA and Hong Kong. We trust each other, are honest with each other and can celebrate with each other. And we do it across hierarchies – that's what makes work fun!

TASKS

You always have an overview of all documents and know exactly where everything is? You can put your organizational talent to use immediately at NDI Europe GmbH. We look forward to receiving your application!

- Every development is accompanied by a range of documentation; in your job you are responsible for the administration and maintenance of documents in the respective document management systems in consultation with Product Data Management
- You do not only manage documents, but also create a variety of technical documentation for mechanics, electronic hardware and software as well as for quality documents (e.g. Verification Reports)

PROFILE

- You have a degree in information technology or comparable training
- Further training in document management and / or technical documentation would be an advantage, as would experience in working with document management systems and mechatronic development projects
- Experience in medical technology is preferable, but not a must
- Systematic work in an organized process environment suits you
- You have the willingness to familiarize yourself with new document management systems and new technical disciplines
- The documentation is written in both English and German
- You enjoy working in an international environment
