Innovations in medical surgery and therapy - this is what we are committed to.

Leading medical technology companies around the world rely on the 3D navigation technologies from NDI - the market leader for more than 20 years. Our competence as an innovative high-tech company supports the implementation of modern, digital solutions in medical fields of application and is a central component of our success.

INSIDE

People work for NDI at four locations around the world. The cultural diversity in our successful company and the requirements of our global customers ensure a motivating work environment. The knowledge, enthusiasm and experience of our employees are essential for our success. We know each other by name - including our colleagues in Canada, the USA and Hong Kong. We trust, respect and are honest with each other.

TASKS

Are you looking for a new challenge in the warehouse and logistics sector? Then we have just the thing for you! We are looking for a motivated warehouse logistics specialist to join our team.

- Your main tasks naturally include receiving goods, checking delivery bills and taking care of storage and booking in the ERP system
- You also prepare orders and get them ready for dispatch so that everything arrives at the right place at the right time
- You also create the appropriate shipping documents and make the corresponding bookings in the ERP system
- You also keep track of our logistics items, such as cardboard boxes or labels, and reorder them independently when something is running low
- In close coordination with Sales, Production and Purchasing, you prioritize tasks and ensure a smooth process

PROFILE

- You have completed training as a warehouse logistics specialist or a comparable qualification and have several years of experience in warehousing and shipping
- You are familiar with PCs and already have experience with ERP systems
- You are familiar with Microsoft Office and work confidently with Word, Excel, Outlook and Teams
- Ideally you already have experience with ISO 9001 and/or 13485, but this is not a must
- Experience in import/export and an industrial truck license would be an advantage
- You have a good command of German and English to communicate with our internal and external contacts
